2017 CATALOG

Founded in 2012, Simon Blake Interiors derives inspiration from everyday life and develops products of great value. We focus on lighting — table lamps, floor lamps, fixtures and pendants. We also present a smaller but equally sharp line of decorative accessories.

We develop hundreds of new styles every year and work towards creating a line that meets a broad range of product trends. To do so, we work with a range of mediums including crystal, glass, metal, wood, ceramic and more.

Our advantage is twofold: a youthful, refined eye for product design and, just as important, years spent in the wholesale and retail sectors by our principals. That experience gives us a tactical business acumen that serves every customer, from boutiques to big box retailers.

Our team provides exclusive and customer-focused attention which we believe provides a unique experience for our customers.
