Light it up

Dramatic designs add artful illumination

ABOVE RIGHT: The Rideau Pendant by Noir makes a stylish statement with one-of-a-kind beaded fringe. The black metal fixture includes six feet of chain and a small canopy with a dark finish.

RIGHT: Inspired by the craftsmanship of Murano's legendary glassmakers, Uplight Group's Dedalo chandelier dazzles with the same traditional lines and curves, replacing glass with metal for a modern interpretation. Glittering wires transmit an incandescent glow.

BELOW: The sculptural design of the Pulse pendant by Corbett Lighting features handcrafted iron mesh, folded to create ruffles. It's topped in a rich gold leaf, offset by a stainless stem.

TOP: Ultra-modern in form and finish, this gilded eight-light wrought-iron chandelier features multiple layered rectangles for geometric appeal. huffharrington.com

ABOVE: A magnificent medley of hand-gilded metal structures form the architectural frame of the Balboa Candle Chandelier. badgleyischkahome.com
BELOW: Ideal for sleek foyers and minimalist living areas, the QS Orion Pendant by Noir boasts a dynamic black metal design, with four light bulbs and six feet of chain. noirfurniturela.com
