SHACK UP

Move over man caves. The female-friendly “she shack” trend has taken over and is here to stay

1. MULTI-FACE STOOL BY NOIR

Objets, Ltd., \$594
“Charming, funny and unexpected, this side table is the perfect touch of humor and because it is made out of concrete. It can stand the test of time.”

2. NEW FRANCO FLOOR LAMP BY JAMIE YOUNG

Collectic Home, \$675
“Antique brass has had a strong presence in the last couple years, and this lamp is the perfect accompaniment to create a soft environment for reading or entertaining friends.”

3. MASTERS CHAIR

Kartell, starting at \$300
“Bringing in a pop of color to the she shack is a must. Most people would think of adding color through a pillow, but why not use this chair to do that? It is a classic piece.”

4. NIGHT FLOWERS RUG

Black Sheep Unique, \$8,585 (for 8x10)
“A good rug is a piece of art for the floor. This rug, with its floral print, pulls out the soft calming colors of the sofa and the saturated peacock blue color of the chair, grounding the space.”

5. CLIFTON SOFA

Mitchell Gold + Bob Williams, starting at \$3,090
“I picked this sofa for its classic and strong lines and paired it with a dusty rose fabric to juxtapose those lines. Nothing says ‘I’m a powerhouse’ like a mix of strong-yet-feminine features in furniture.”

6. D.154.2 ARMCHAIR BY MOLTENI & C

Urbanspace Interiors, starting at \$3,590
“Featuring a classic-modern form and feminine curves, this chair is perfect for any modern space and lends itself to curling up and reading a book on a Sunday afternoon.”

7. HOLLAND DESK BY JOYBIRD

joybird.com, \$1,849
“I love this desk with its strong form and vintage lines, making it a nice writing place for the space.”

9. IRWIN COCKTAIL TABLE BY ARTERIORS

Objets, Ltd., \$1,500
“The tiered heights of this table make it easy for our Renaissance woman to pop her feet up after a long day. The organic curves of the light and dark stone allow for a visual sense of open-and-airiness for the space.”

8. QS LE MAIN CHAIR BY NOIR

Objets, Ltd., \$1,320
“A room is not complete without a unique piece that gets everyone talking. This side chair does just that. Its soft wood tones play well with its organic nature.”

THE CONCEPT

“A she shack is a modern-day retreat for today’s renaissance woman and a trend that isn’t going away. In this space, unique lines and soft and saturated colors play off of fun and uncommon pieces, giving the space feminine whimsy. I believe a well-balanced room takes into account all materials and shapes and mixes in unexpected finds to express one’s self.”
