DESIGN.ME

PROUDLY CANADIAN

In 2016 four industry vets with a zeal for innovation decided to make products that would walk-the-walk of being game-changers. At **Design.ME**, We believe that haircare should be simplified; easy to use, offer instant results and not break the bank. Period.

We do so with pretty clever and responsible packaging, the ultimate in high quality ingredients, and vigorous formula testing amongst some of the industry's top stylists. We are driven and inspired by the vibes of today's beauty gurus; that are unique, colourful driven, fun-loving and we're *hair* for it!

Lisa Walker

COLLECTION

Design.ME is proud to be partnering with the queen of balayage: Lisa Walker. These products will not only give stylists and their clients the look they desire, but also break a rule or two by simplifying the color process.

TEASE.*me* BALAYAGE TEASING SPRAY

With the Balayage trend here to stay, what better way to achieve the perfect free-hand balayage than with a little tease? Work with finer sections to create softer, more gentle results, giving your client exactly what they dreamt of.

DETANGLE.*me* DETANGLING SPRAY

"No pain, no gain" says who? We all know that dreaded moment when your backcombed highlights are ready to go. Now you can minimize pain, split ends and breakage.

BALANCE.*me* POROSITY EQUALIZER SPRAY

Ease your mind with this gentle and lightweight formula to make sure the pigment is absorbed evenly on hair that may be uneven or high porosity.

COLOR CONVERSATIONS

If you're looking to boost your blonding business, you're in luck: **Colin Caruso** shares his tips on creating summer-perfect hair with must-have platinum shades.

Colin Caruso
Artistic Director of
Professional Hair Color
@colincarusos

COLOR XG®

PROBLEM-SOLVING **PLATINUM**

Paul Mitchell® Professional Hair Color strives to equip hairdressers with the tools to be successful, and the *Platinum Series* from *Color XG*® proves it. Check out these top two toning solutions.

PMC7PXG

The Problem: Dull, flat strands after toning.
THE SOLUTION: We know how important cool tones are, so the P Series was designed to eliminate warmth without color going dull or flat.

PMC9PXG

The Problem: An over deposit of color.
THE SOLUTION: This series cools without an over deposit, leaving a beautiful, almost iridescent kiss of color over blonde hair.

DUAL TAPE EXTENSION 18 INCH 6 PIECES PER PACK

**100%
HUMAN HAIR**

What Exactly Are Dual Tape Tape-In Extensions and How Do They Work?

Tape-In Hair Extensions have been around for many years now and they still remain extremely popular. The thin tape weft is being held together by a polyurethane strip which is about 1.25" wide. These pre-taped hair wefts stay in place by sandwiching a very thin section of the client's natural hair. This extension system is one of the most requested hair extension systems worldwide!

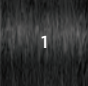

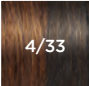

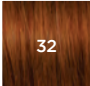

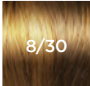

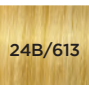

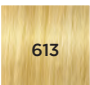

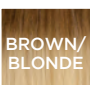

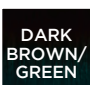

There is no need for hot tools or chemicals of any sort to apply Dual Tape Extensions. The application is 100% natural and easy to do. A full head of extensions can be applied in approximately an hour with no damage to the client's natural hair. They will last up to 3 months with proper client maintenance and can be re-used numerous times, again depending on how well they have been maintained.

Are Dual Tape Hair Extensions 100% Human Hair?

Absolutely! Dual Tape Hair Extensions are 100% Remy human hair. This means that the cuticle of the hair has not been stripped, it is still intact and each strand of hair in the weft is running in the same direction so there is no matting or tangling. Because the cuticle is still intact, the extensions accept colour and conditioning treatments very effectively and as a result, remain in great condition much longer than non-remy hair. You can style your Dual Tape Extensions just as you would style your natural hair!

Dual Tape Hair is 100% Chinese Hair, so it is very strong and less likely to break than other brands on the market.

We offer 16 natural shades, as well as 5 fun shades and 3 Balayage shades – we call these our Colour Graduals.
