BUY CANADIAN  BY CANRAD

### WHAT IS HEMP?

Hemp is a part of the cannabis sativa family, and has been sought out for its seed and fiber production. However, new research has found that cannabinoids, such as cannabidiol (CBD), offer many promising impacts on overall health. Hemp produces trichomes, which are a resin-like substance where CBD is produced and stored. Just like plants produce cannabinoids, we also produce our own cannabinoids. Cannabinoids help to regulate naturally occurring systems in our bodies. When our bodies are not functioning properly the endocannabinoid system may not be functioning properly and can lead to problems. Our endocannabinoid system can be supported by introducing plants cannabinoids such as CBD.

### DEEP RELIEF MASSAGE OIL 120 ML

# OLIGO PROFESSIONNEL WAVES...

- **AMMONIA AND THIO FREE**
- **CAN COLOUR THE SAME DAY**

With the Oligo Professionnel waves, you can create bouncy natural looking curls on all hair types. With their low alkalinity levels, (pH 7.2 to 7.4), these waves are in better harmony with the hair and the scalp.

## ALKA

is an alkaline wave specially formulated for natural and fine hair. The balanced formula protects the polypeptide bonds during the process.

OLIOL012

## EXO

is a self-heating wave specially formulated for resistant grey and white hair. The carefully selected ingredients are balanced to soften the bonds of difficult to curl hair types without damaging their structure.

OLIOL013

## TECNO

is an acidic wave specially formulated for colour-treated and highlighted hair up to 50%. The activator is composed of a complex blend which protects hair that is very vulnerable due to previous chemical services.

OLIOL014

## OH7

is a neutral texturizer formulated for resistant, grey, white, natural and fine hair. Like pure water, it has a pH of 7.0. This attribute makes the OH7 gentler on the scalp helps to maintain the integrity of the hair.

OLIOL015

## OH6

is a pure acid texturizer formulated for colour-treated and highlighted hair up to 80%. This formula is the perfect tool for obtaining all of the latest creative styles. Unique in its category with a pH of 6.0, OH6 restructures the hair without causing any damage. Furthermore, its pH is similar to those of most conditioning products.

Finally a product that can be used on hair that is up to 80% highlighted!

NEW TO CANRAD

BUY CANADIAN  BY CANRAD

en Vogue  
THE GEL COMPANY

### EN VOGUE NAIL PRODUCTS ARE “9 FREE”

Why should this be important in choosing nail products? We will give you 9 good reasons...

- 1. Toluene** is a liquid solvent that smells like paint thinner. You can be exposed to toluene by breathing it in or getting it on your skin, causing skin irritation.
- 2. Dibutyl Phthalate** is a commonly used plasticizer and has been linked to cancer.
- 3. Formaldehyde** is a commonly used chemical preservative. Its vapors can be irritating and can trigger asthma. It is also a known human carcinogen, a factor directly involved in causing cancer.
- 4. Formaldehyde Resin** is a derivative of Formaldehyde, mainly used in the production of coatings and adhesives. It is not as toxic as Formaldehyde but can be an allergen.
- 5. Camphor**, this chemical acts as a cover on your nails, depriving them of nutrients and causing yellow staining on your nails.
- 6. Xylene** is irritating to the skin, eyes, and respiratory tract. It can cause systemic toxicity by ingestion or inhalation.
- 7. TPHP** is a chemical used in plastics to improve flexibility. A handful of animal studies have suggested that it could be an endocrine disrupter which affects your hormones.
- 8. Parabens**, these are preservatives that have gotten a bad rep for their estrogen-mimicking effects, which past research has suggested may trigger major health concerns like hormonal problems.
- 9. Ethyl Tosylamide** is a plasticizer that helps transform polish from drippy to dry in minutes. This ingredient has already been barred from personal care products in Europe due to its antibiotic properties and concern over antibiotic resistance.

en Vogue  
THE GEL COMPANY

en Vogue is a Canadian manufacturer committed to producing and promoting a superior quality gel nail system and healthy nails. Created in 1996, en Vogue has been in business for over 20 years and was one of the first gel manufacturers in North America. A brand created for serious minded nail technicians who want to be on the cutting edge of technology and application of advanced techniques. en Vogue is a serious manufacturer producing healthy nail products committed to using high grade organic polymers with no harmful solvents. en Vogue gels are known worldwide for incredible gel stability that will not run into the cuticle allowing top performance of gel products. en Vogue gels are non-porous and non-lifting.

lac it!  
UNLEASHED GEL POLISH

The lac it! gel polish is one of the best value products you will find in the world of nails. The quality to price ratio is constantly turning heads! This is not a hybrid gel polish like most brands. This is a true gel polish with a 100% gel base. Lac it! is made with no solvents or harmful chemicals. We are proud to say that lac it! is “9 free”. Have confidence that you are promoting healthy nails to your customer base with lac it! No solvents also means there is no odor commonly associated with nail products and there is no wasted product due to shrinking and evaporation you will find with hybrid gel polishes. Lac it! is highly pigmented for great coverage and brilliant color. This gel polish is also known for long lasting wear. Healthy nails...amazing quality...amazing price...lac it! and love it!

## SAVE ON SHEARS\* PLUS GET A FREE HOLSTER + FREE KASHO WATCH

**SILVER SERIES** The extremely attractive and sleek lined Silver series has a very offset design for optimum ergonomics. This is a scissor for those who want their creativity to flow. The fully hollow convex mirror-polished blades are forged from ATS314 carbon steel, making them extra hard wearing due to the added cobalt and the matrix structure of the steel. The flat centre screw system comes with an adjustable key for that optimum tension control.

## METHODS OF PAYMENT

### To our Dear Valued Customers:

CanRad is very pleased to announce that we have added more convenient, secure and quick ways for you, our cherished customers to submit payment.

For detailed information please visit our website at <https://canrad.com/pages/methods-of-payment>

#### *Credit Cards*

- Visa
- Mastercard

#### *E-Transfer*

- Our e-transfer email is [epayecanrad.com](mailto:epayecanrad.com)
- In the comment/notes section be sure to include your CanRad account number and invoice number

#### *Personal and Business Cheques & Cash*

#### *NEW! Bitcoin*

- Please follow the URL : <https://app.coinberry.com/pay/7a66601baf6> and complete the check out process.
- Please note that you will have to enter both the CanRad Invoice number and Invoice payment amount.

### Online Payment

- Search and set up "Can-Rad Beauty Ltd" as a payee. Your online Banking Portal will guide you in their "Set up a new payee" section
- You will require your CanRad account number (Some Banks will require you to add 2 additional digits -- if so add 00 to your CanRad account number)

# Reward YOUR customers with AIR MILES® Reward Miles
