Dear Cherished Customers,  
For those of you that do not know me, my name is Kenny Wise and I am blessed to be president of CanRad Beauty. I am the fourth generation of my family to have this privilege. As we all begin the holiday season and CanRad enters into our 110<sup>th</sup> year of business, it is a great time to reflect. We are living through such a tumultuous time, but as my Father and Grandmother taught me, the hairdresser always finds a way to survive. We all know someone devastated by Covid, but if you are reading this, I would hope that the worst is behind us, and we can start settling into our new normal. Covid allowed me time to pause and take stock. I have a greater appreciation for how important one on one human contact is, and how you really need to count your blessings and enjoy everything you have. With the support of our world-class manufacturers that we represent. I am confident better times are ahead and now we can transition from survival mode, back to expressing the creative and artistic talents you all have. I want to wish you and your families a safe and joyous holiday season, and a prosperous and healthy happy new year.

Warmest regards,

Kenny Wise  
President and CEO

**DESIGN MASTER SERIES** Available in both straight and offset as well as including left handed options. Boasting mirror polished appearance the KDM series is forged from high grade and high wearing carbon steel. The easy to use raised ratchet screw system has a unique spring mechanism for perfect tension and precision cutting. With a satin finish, the hollow semi-convex blades create a razor like edge giving incredibly smooth cutting action.

**GREEN SERIES** The Green Series is forged from high carbon VG-10W steel with convex hollow ground blades honed to a fine mirror polish. The Green Series is designed with a ball bearing tension system which reduces friction and allows you to power through a large section or thick hair, while reducing any fatigue on the fingers and thumb. The Green series texturizer's teeth are tapered towards the inside of the blade which prevents tugging of the hair thus creating a more comfortable experience for your client.

## EN VOGUE NAIL PRODUCTS ARE “9 FREE”

Why should this be important in choosing nail products? We will give you 9 good reasons...

- 1. Toluene** is a liquid solvent that smells like paint thinner. You can be exposed to toluene by breathing it in or getting it on your skin, causing skin irritation.
- 2. Dibutyl Phthalate** is a commonly used plasticizer and has been linked to cancer.
- 3. Formaldehyde** is a commonly used chemical preservative. Its vapors can be irritating and can trigger asthma. It is also a known human carcinogen, a factor directly involved in causing cancer.
- 4. Formaldehyde Resin** is a derivative of Formaldehyde, mainly used in the production of coatings and adhesives. It is not as toxic as Formaldehyde but can be an allergen.
- 5. Camphor**, this chemical acts as a cover on your nails, depriving them of nutrients and causing yellow staining on your nails.
- 6. Xylene** is irritating to the skin, eyes, and respiratory tract. It can cause systemic toxicity by ingestion or inhalation.
- 7. TPHP** is a chemical used in plastics to improve flexibility. A handful of animal studies have suggested that it could be an endocrine disrupter which affects your hormones.
- 8. Parabens**, these are preservatives that have gotten a bad rep for their estrogen-mimicking effects, which past research has suggested may trigger major health concerns like hormonal problems.
- 9. Ethyl Tosylamide** is a plasticizer that helps transform polish from drippy to dry in minutes. This ingredient has already been barred from personal care products in Europe due to its antibiotic properties and concern over antibiotic resistance.

lac it!  
UV/LED GEL POLISH

The lac it! gel polish is one of the best value products you will find in the world of nails. The quality to price ratio is constantly turning heads! This is not a hybrid gel polish like most brands. This is a true gel polish with a 100% gel base. Lac it! is made with no solvents or harmful chemicals. We are proud to say that lac it! is “9 free”. Have confidence that you are promoting healthy nails to your customer base with lac it! No solvents also means there is no odor commonly associated with nail products and there is no wasted product due to shrinking and evaporation you will find with hybrid gel polishes. Lac it! is highly pigmented for great coverage and brilliant colour. This gel polish is also known for long lasting wear. Healthy nails...amazing quality...amazing price...lac it! and love it!
